

SHERMAN'S PROJECTS

Creating Heating Solutions

Specializing in Floor Heating, Heat Pumps & Electrical Accessories

Energy Efficient windows & doors

- Much heat gain and loss occurs through glazing
- Rehau special chamber design enables your home or building to enjoy greater thermal efficiency, keeping your home warmer, keeping out draughts
- Using double glazing will virtually halve outside noise levels
- Rehau uPVC window and door systems save money on heating and cooling bills
- Rehau is designed to look good, and to perform exceptionally well ... In short it is style and performance in perfect harmony
- Whatever the style of your home or building, we will ensure that the window design blends in beautifully. Whether you are looking for casement, tilt-and-turn, French bay or bow windows, we can fit them
- A superb selection of doors styles is available for you to choose from, to make the most of the entrance to your home
- Chic contemporary, quietly traditional, cottage or Edwardian styles are available ... Choose from French doors, stable, residential, sliding and folding doors.
- Rehau frames will not warp, rot or discolour. They are secure and compliant with all relevant building regulations
