Creating Heating Solutions

Specializing in Floor Heating, Heat Pumps & Electrical Accessories

SHERMAN'S ON SCREED INSULATION:

Our on screed insulation are high performance, made of waterproof Extruded polystyrene faced with fibreglass mesh embedded into a water proof cement polymer mortar. The Benefits of our ON Screed insulation is as follows:

- **Light Weight**- Offering a perfect solution for insulation and waterproofing.
- **Act as thermal Barrier** – Significantly reducing heat loss to the substrate
- **Easy to apply**- Easy to work with and install into new and existing building projects. Over concrete using a flexible tile adhesive.
- **Removes the need for Tile or Slate Undelay** – Providing the sub floor is structurally sound and flat
- **Waterproof** – Sherman's on screed insulation will not absorb moisture making it ideal for bathrooms too.
- **Save Money**- Our insulation boards will assist you to save when used in conjunction with under floor heating by acting as a very efficient thermal barrier.
- **Available in**- 10mm (Standard) on Request 6mm, 20&50mm
- **High sound proofing properties.**
