Under Carpet Heating

Sherman's Under Carpet heating is a thin foil base mat which allows the heat to rise gently through the room, delivering the heat directly to the living area with a minimum heat loss. For easy convenience, it can be installed under all types of carpets, except rubber or foam backed carpets. We take pride in customer satisfaction and have provided you with some more information on our under carpet heating thus helping make your decision less difficult.

Our under carpet heaters are:

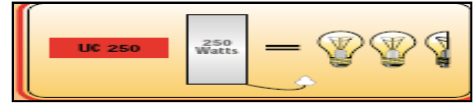

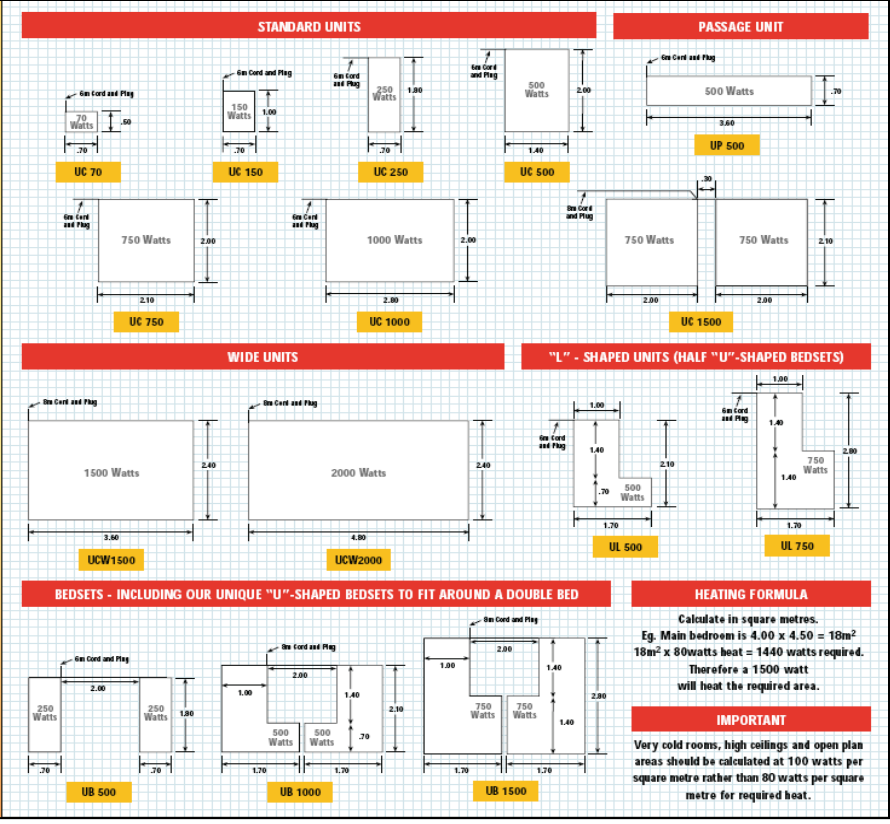

- SAFE:** They are Safety tested and have earth shielded cables which make it completely waterproof. It withstands heavy traffic and eliminates any risk of electrical shock.
- UNOBSTRUSIVE:** Our foil based under carpet heaters are paper thin and gets layered between the under veldt and carpet with no visible elements or storage problems.
- ECONOMICAL:** Sherman's under carpet heaters take effect within 30min after switching it on, and will heat the area as and when you need it.
- GUARANTEE:** Our under carpet heaters are **Warmup** products and come with a Factory backed warranty of 5 years.
- CONTROL:** Although your heater can be left on without controlling it, a thermostat can be installed giving you complete control over the heater and room temperature.
